

**SFS SPECIAL FLEET SERVICE**

*Special Service for Special Equipment*

## Fiberglass Restoration And Repair

- Fiberglass tools often get scratched and damaged during use, making them potential safety hazards.
- These tools are too expensive to throw out and begin to take up needed warehouse space.
- Special Fleet Service will repair your damaged fiberglass tools saving you time and money buying new ones.

Before

After

- Special Fleet will restore and test your hot sticks, arms and other fiberglass tools to new.
- All our work meets ASTM standards.

# Restore, Don't Replace!
